Additional Information:

CNS¹ Central Nervous System - refers to the brain, meninges and spinal cord.

CCS² Central Circulatory System - means the major internal blood vessels including the following:

- arteriae pulmonales (pulmonary artery);
- arteriae coronariae (coronary artery);
- arteria carotis communis (common carotid artery);
- arteria carotis externa (external carotid artery);
- arteria carotis interna (Internal carotid artery);
- arteriae cerebrates (cerebella arteries);
- truncus brachiocephalicus (brachiocephalic trunk);
- venae cordis (cardiac veins);
- venae pulmonales (pulmonary vein);
- venae cava superior (superior vena cava);
- venae cava inferior (inferior vena cava);
- arcus aorta (aortic arch);
- thoracica aorta (thoracic aorta);
- abdominalis aorta (abdominal aorta);
- arteriae ilica communis (common iliac arteries);
- aorta descendens to the bifurcatio aortae (descending aorta to the bifurcation of aorta)

Short term use³ Normally intended for continuous use for between 60 minutes and 30 days Long term use⁴ Normally intended for continuous use for more than 30 days
