3. In case an international treaty to which the Socialist Republic of Vietnam is a contracting party contains provisions different from those of this Decree, the provisions of such international treaty shall prevail.";

2. Amendment and addition Article 2

**"Article 2. Subjects of application**

This Decree applies to organizations and individuals producing and trading goods in Vietnam; organizations and individuals exporting and importing goods; state agencies; related organizations and individuals.";

3. Amendment, supplement Clause 1 Article 7

**"Article 7. Language for displaying goods labels**

1. Contents that must be shown on labels of goods circulating in the Vietnamese market must be written in Vietnamese, except for exported goods not for domestic consumption and except for the case specified in Clause 4 of this Article." ;

4. Amendment, supplement Clause 4 Article 9

**"Article 9. Responsibilities for labeling of goods**

4. Organizations and individuals that import goods into Vietnam must label them according to the provisions of this Decree on mandatory content shown on the labels of imported goods.";

## 5. Amendment and addition Article 10

### **“Article 10. Compulsory content to be shown on goods labels**

1. Labels of goods circulating in Vietnam are required to show the following contents in Vietnamese:

- a) Name of goods;
- b) Name and address of the organization or individual responsible for the goods;
- c) Origin of goods.

If the origin cannot be determined, write the place where the final stage of finishing goods is performed as prescribed in Clause 3, Article 15 of this Decree;

d) Other mandatory contents must be shown on the label according to the nature of each type of goods specified in Appendix I issued together with this Decree and relevant laws.

In case goods have properties of many groups specified in Appendix I issued together with this Decree and not yet specified in other relevant legal documents, the organization or individual shall be responsible for the goods. based on the main use of the goods, determine the group of the goods to write the contents specified at this point.

In case the size of the goods is not enough to show all the mandatory contents on the label, the contents specified at Points a, b and c, Clause 1 of this Article must be written on the goods label, the contents The provisions of Point d Clause 1 of this Article are stated in the documents accompanying the goods and the label must indicate the place where such contents are inscribed.

2. The original labels of goods imported into Vietnam are required to show the following contents in a foreign language or in Vietnamese when carrying out customs clearance procedures:

- a) Name of goods;
- b) Origin of goods.

If the origin cannot be determined, write the place where the final stage of finishing goods is performed as prescribed in Clause 3, Article 15 of this Decree;

c) The name or abbreviated name of the producing organization or individual or the organization or individual responsible for the goods abroad.

c1) If the original label of goods does not show the full name and address of the producing organization or individual or the organization or individual responsible for the goods abroad, these contents must be fully displayed. sufficient in the documents accompanying the goods;

c2) For goods imported into Vietnam with original foreign-language labels as prescribed at Points a, b, c, Clause 2 of this Article, after carrying out customs clearance procedures and transferring them to the warehouse for storage, the Importers must add Vietnamese-language labels as prescribed in Clause 1 of this Article before putting goods into circulation in Vietnam's market.

3. Labels of exported goods shall be labeled according to the laws of the importing country.

a) In case the origin of goods is shown on the label of exported goods, the content stating the origin of goods must comply with the provisions of Clause 1, Article 15 of this Decree.

b) Contents of labels of exported goods comply with the provisions of Clause 2, Article 18 of this Decree.

4. The Minister of Science and Technology shall detail a number of compulsory contents on goods labels specified at Point d, Clause 1 of this Article by electronic means.”;

## 6. Amendment, supplement Clause 3 Article 12

### **“Article 12. Name and address of the organization or individual responsible for the goods**

3. Goods imported for circulation in Vietnam must have the name and address of the producing organization or individual and the name and address of the importing organization or individual on the goods label.

For goods being medical equipment produced domestically or imported for circulation in Vietnam, the name and address of the owner of the medical equipment must be recorded and the name and address of the owner of the free-sale registration number. In case medical equipment does not have a free-sale registration number, write the name and address of the owner of the medical equipment and the name and address of the organization or individual on the import permit.”;

## 7. Amendment, supplement Article 15

### **“Article 15. Origin of goods**

1. Organizations and individuals producing, exporting and importing by themselves determine and record the origin of their goods, ensuring truthfulness, accuracy, and compliance with legal regulations on the origin of exported and imported goods. imports, goods manufactured in Vietnam or international commitments to which Vietnam participates.

2. The origin of goods stated on the label shall be represented by one of the following phrases: “made in”; “made in”; “producing country”; “origin”; “made by”; “product of” shall be accompanied by the name of the country or territory producing the goods or in accordance with the provisions of law on the origin of the goods.

3. Where the origin of goods cannot be determined as prescribed in Clause 1 of this Article, the place where the final stage of finishing the goods is performed shall be inscribed. Expressed by one of the phrases or a combination of phrases expressing the finishing stage of goods as follows: “assembled at”; “bottled at”; “mix at”; “completed at”; “packed at”; “labelled at” with the name of the country or territory where the final stage of finishing the goods is performed.

4. The name of the country or territory where the goods are manufactured or the place where the final stage of finishing the goods is performed may not be abbreviated.”;

8. Amendment, supplement Points a and b Clause 3 Article 16

**“Article 16. Composition, quantitative ingredients**

3. For some types of goods, the recording of ingredients and quantitative ingredients is done as follows:

a) For foods, write ingredients in order from highest to lowest in terms of weight

a1) If the ingredient is an additive, write the name of the additive group, the name of the additive or the INS international code (if any);

a2) If the additive is a sweetener or colorant, write the name of the group of sweeteners and colorants, the name of the substance or the INS international code (if any) and add that the substance is a "natural" substance. , "natural variety", "synthetic" or "artificial".

a3) In case the additive is a flavoring, write "flavoring" together with one or more of the following phrases to clarify the meaning: "natural", "natural variety", "synthetic"; "artificial".

a4) In case the country's additive code is the same as the international code (INS), the country code can be written instead of the international number (INS);

b) For drugs for human use, veterinary drugs, plant protection drugs, insecticidal and germicidal preparations for household and medical use, write the ingredients and content of active ingredients.”;

9. Amendment, supplement Article 24

**“Article 24. Transition Terms**

1. Goods with labels in accordance with the provisions of Decree No. [43/2017/ND-CP](#) that have been manufactured, imported or circulated before the effective date of this Decree shall continue to be circulated and used until the end of this Decree. expiry date indicated on the product label.

4. Goods with labels in accordance with the provisions of Decree No. [43/2017/ND-CP](#) that have been manufactured, imported and circulated in Vietnam before the effective date of this Decree, but are not required to have an expiration date. used on labels of goods may continue to be circulated and used.

5. Goods labels and commercial packages labeled with goods in accordance with Decree No. [43/2017/ND-CP](#) that have been produced or printed before the effective date of this Decree may continue to be used. for the production of goods, but within 02 years from the effective date of this Decree.

**Article 2. Annuling and replacing a number of provisions in Decree No. 43/2017/ND-CP**

1. To annul Clause 2, Article 8; Point b, Clause 2, Article 5 of Decree No. [43/2017/ND-CP](#) .

2. Annuling the provisions: For goods that cannot be exported or are returned and put into circulation on the market, the auxiliary label must have the words **"Made in Vietnam"** in bold boldface as prescribed in Clause 2 of this Article. Clause 4, Article 8 of Decree No. [43/2017/ND-CP](#) .

3. Annex I is annulled; Appendix IV; Appendix V to Decree No. [43/2017/ND-CP](#) and replaced by Appendix I; Appendix IV; Appendix V to this Decree.

**Article 3. Effect**

This Decree takes effect from February 15, 2022.

**Article 4. Responsibilities for implementation**

1. The Minister of Science and Technology is responsible for guiding the implementation of this Decree.

sixty one	Toothbrush	<p>a) Composition;</p> <p>b) Technical specifications;</p>

		<p>c) User manual;</p> <p>d) Warning information (if any);</p> <p>d) Month of production.</p>
62	Wet towel	<p>a) Composition;</p> <p>b) Technical specifications;</p> <p>c) User manual;</p> <p>d) Warning information (if any);</p> <p>d) Date of manufacture;</p> <p>e) Expiry date.</p>
63	Beauty machines and tools	<p>a) Specifications;</p> <p>b) User manual;</p> <p>c) Warning information (if any);</p> <p>d) Year of manufacture.</p>
sixty four	Tools and materials for food packaging	<p>a) Composition;</p> <p>b) Technical specifications;</p> <p>c) User manual;</p> <p>d) Warning information (if any);</p>
65	Helmets for motorcyclists, mopeds, electric bicycles, electric mopeds, and mopeds (hereinafter referred to as helmets)	<p>a) Hat size ;</p> <p>b) Month and year of manufacture;</p> <p>c) Hat style (Model);</p> <p>d) Quantitative;</p> <p>d) User manual;</p> <p>e) Warning information (if any).</p>
66	Electric bicycles, electric motorcycles, motorbikes	<p>a) Trademarks;</p> <p>b) Model Type;</p> <p>c) Self-esteem (Self-mass);</p> <p>d) Specifications;</p> <p>d) Year of manufacture;</p> <p>e) User manual;</p> <p>g) Warning information (if any).</p>
sixty seven	Food supplements, medical nutritional foods, foods for special diets	<p>a) Quantitative;</p> <p>b) Date of manufacture;</p> <p>c) Expiry date;</p> <p>d) Ingredients, quantitative ingredients of substances added (or nutritional value);</p> <p>dd) Warning information (if any);</p> <p>e) Instructions for use, instructions for preservation (if any);</p> <p>g) Publication of health recommendations (if any);</p> <p>h) Food supplement must have the phrase: "Additional food";</p> <p>i) Medical nutritional food must have the phrase "Medical nutritional food" and "used for patients with medical staff's supervision";</p> <p>k) Food used for special diets must have the phrase " Nutritional products (for specific subjects)."</p>

68	Insecticidal and germicidal preparations for household and medical use	a) Quantitative; b) Date of manufacture; c) Expiry date; d) Ingredients, active ingredient content; dd) Production batch number; e) Registration number for circulation in Vietnam; g) Warning information; h) User manual; i) Care instructions; k) Disposal instructions; l) Warning chart according to GHS; m) Name and address of the place of production of the production unit; n) Name, address, and phone number of the unit in which the name is registered for circulation.
----	--	---

## APPENDIX IV

HOW TO WRITE COMPONENTS AND QUANTITY OF GOODS  
(Attached to Decree No. 111 /2021/ND-CP dated December 9, 2021 of the Government)

**1. The method of recording ingredients and quantitative ingredients shall comply with the provisions of Article 16 of this Decree.**

STT	CASE	HOW TO WRITE
first	The amount of water added as raw materials for production, processing and existence in products and goods.	Inscription is an ingredient of that good.
2	In case the name of an ingredient is written on the goods label to draw attention to the goods, the quantity of that ingredient must be recorded.	For example: On a separate label with the phrase "High calcium content", it must state how much calcium it contains.
3	Metal household appliances and utensils made from a main raw material that determines their use value must have the name of the main ingredient together with the name of the goods and the ingredients and quantitative ingredients are not required.	For example: Goods with the name listed on the label as plastic pots, leather shoes, bamboo mats, iron chairs, paper towels, rubber cushions, porcelain vases are not required to write ingredients and quantitative ingredients.

**2. Other ways of recording ingredients and quantitative ingredients of goods**

COMMODITIES	ITEMS	HOW TO WRITE
Seafood	Mixed food	Quantitative ingredients include: Moisture; Crude proteins ; Raw fat; Raw fiber; Total phosphorus ; Total Lysine ; Preservatives if any: Ethoxyquin, Dibutylhydroxytoluene, BHT (Butylated hydroxyl toluene), BHA (Butylated hydroxyl Anisole).
	Mixed feed for pet animals	Minimum quantitative ingredients include: Moisture; Crude proteins ; Raw fat; Raw fiber.
	Complementary food	Quantitative ingredients, specific to each type: - Mixture of minerals, vitamins, amino acids: Vitamins, single minerals, amino acids. - Microbial products: Species of microorganisms. - Preparations extracted from plants, animals, microorganisms, fungi: Main active ingredients (include the name of the organism used for production).

	Fresh food	Quantitative composition: Name of species used as feed.
Food Additives	Food additives. If the food additive has two or more additives in the same package.	List them in full in order of their weight ratio in the package.
Animal feed	<ul style="list-style-type: none"> <li>- If there is additional non-nutritive substances to prevent disease.</li> <li>- If it is synthetic food.</li> <li>- If it is a supplementary food.</li> </ul>	<p>Main quantitative ingredients.</p> <ul style="list-style-type: none"> <li>- Add non-nutritive ingredients.</li> <li>- Add the content of protein, lipid, ash, fiber, moisture, solubility.</li> <li>- Add the content of supplements.</li> </ul>
Medicine	Medicine.	Mass of medicinal herbs.
Veterinary drugs, vaccines, biological products for veterinary use	Veterinary Medicine.	Ingredients, active ingredient quantification.
Biological products, microorganisms, chemicals, environmental treatment agents in aquaculture	Products to treat aquaculture environment	<p>Quantitative ingredients, specific to each type:</p> <ul style="list-style-type: none"> <li>- Chemicals: Chemical formula, structural formula or according to the List of permitted chemical names.</li> <li>- Mixture of minerals, vitamins, amino acids: Vitamins, single minerals, amino acids.</li> <li>- Microbial products: Species of microorganisms.</li> <li>- Preparations extracted from plants, animals, microorganisms, fungi: Main active ingredients (include the name of the organism used for production).</li> </ul>
Aquatic veterinary medicine	Aquatic veterinary medicine	Structural formula or composition.
Plant protection products	Plant protection products.	Quantitative composition of active ingredients, solvent content (if it changes the toxicity of the drug).
Textile, garment and footwear products	<p>Garments.</p> <ul style="list-style-type: none"> <li>- If there are multiple classes.</li> </ul>	<p>Main quantitative composition of the material.</p> <ul style="list-style-type: none"> <li>- Record the main quantitative components of each class.</li> </ul>
Wooden	<ul style="list-style-type: none"> <li>- Sawn timber of the same tree species.</li> <li>- Sawn timber from many tree species.</li> </ul>	<ul style="list-style-type: none"> <li>- Scientific name of the wood species.</li> <li>- Wood group.</li> </ul>
	Civil wood products.	Wood name.
Metallurgical products	<ul style="list-style-type: none"> <li>- Steel.</li> <li>- Metal.</li> <li>- Ore.</li> </ul>	<ul style="list-style-type: none"> <li>- Steel grades.</li> <li>- Type, purity (% metal).</li> <li>- Ore content (% mass).</li> </ul>
Petroleum products	Companion gas and other hydrocarbon gas .	Gas composition (% by volume).
Chemistry	Chemistry.	Chemical formula, structural formula, quantitative composition.
	Chemicals contained in pressure vessels.	Add the loading capacity.
Fertilizer	Fertilizer.	Quantitative ingredients.

## APPENDIX DRAW

OTHER WARNING ON TECHNICAL SPECIFICATIONS, INFORMATION, WARNINGS OF CLEANING AND SAFETY OF GOODS  
(Attached to Decree No. 111/2021/ND-CP dated December 9, 2021 of the Government)

COMMODITIES	ITEMS	HOW TO WRITE
Seafood; biological products, microorganisms, chemicals, environmental treatment agents in aquaculture	Food supplement; aquaculture environment treatment products.	- Write the phrase "For aquaculture use only"; - Time to stop using before harvest: specify the number of days to stop using before harvest to ensure food safety regulations for farmed aquatic products.
Veterinary drugs, vaccines, biological products used in veterinary drugs	Veterinary Medicine.	Main effect, side effect, registration number, production batch number and the phrase "For veterinary use only".
	- If it is a class A poison.	- Add the phrase (in black letters): "Do not exceed the prescribed dose".
	- If it is a class B poison.	- Add the phrase (in red): "Do not exceed the prescribed dose".
	- If it is a drug for external use.	- Add the phrase: "For external use only".
Plant protection products	Plant protection products.	User registration number, KCS number, information on toxins, warnings and instructions on how to prevent poisoning, first aid instructions when poisoning.
Breeds of livestock; aquatic varieties	Aquatic varieties.	Length, main stem diameter, development stage.
	Pet breed.	Varieties grade, yield criteria, variety characteristics.
	- If it is rotten poultry eggs.	- Record more egg yield/year.
	- If it is a meat-oriented poultry.	- Record more weight gain/unit time.
	- If it is a breed of pork.	- Add the ability to gain weight, the level of food consumption, the thickness of back fat.
	- If it's a sow.	- Enter the number of children born/age, number of litters/year.
	Aquatic animal breeds:	
	- Aquatic breeds for commercial farming;	- Number of days of age, length of seed or type of post (applicable to shrimp seed).
	- Artemia eggs.	- Number of eggs/g, hatching rate (%)
	- Breed of parent aquatic species.	- Mass, stage of sexual development.
Metallurgical products	- Alloy.	- Characteristic criteria to distinguish, decisive to the purpose of use.
Fishing gear	- Fishing nets.	- Color, roughness (Tex), dry breaking strength (N), mesh size .
	- Yarn and rope used for fishing.	- Diameter, roughness (Tex), dry breaking strength (N), twist (turn/m).
Chemistry	Chemistry.	Typical quality criteria.
	- If it is a flammable, explosive, toxic, corrosive chemical.	- Add corresponding warning.
	- If the chemical is contained in a pressure vessel.	- Add the number of the tank, the charging capacity, the person charging, the danger warning.
Industry explode materials	Industry explode materials.	The main quality indicators and usability in industrial activity.
