Subject: The Pilot Run of a New Requirement on Procurement of Medical Devices by the Department of Health

Dear Local Responsible Persons (LRP) of medical devices listed under the Medical Device Administrative Control System (MDACS),

The Pilot Run of New requirement on the Procurement of Medical Devices by the Department of Health

Thank you for your listing of Medical Devices (MD) under the Medical Device Administrative Control System (MDACS).

This e-mail serves to inform you on a pilot run of a new requirement on procurement of MD by the Department of Health (DH).

In order to enhance the customer protection for DH as a buyer of MD, i.e. to ensure the safety, quality and performance of the medical devices procured and the availability of after-sale (post-market) support from suppliers, DH will introduce a pilot run on procurement of MD with effect from 1st October 2022. Under the pilot run, certain MD (including condoms, lubricants of Class II or above*, blood glucose meter and blood glucose strip) being purchased by DH should preferably be listed under the MDACS. Subject to the experience gained from the pilot run, DH will include more MD into the scheme, with an aim to cover all MD being procured by the DH. For details, please refer to our website (<https://www.mdd.gov.hk/en/whats-new/mdacs-activities/index-id-2307.html>).

Traders, including LRPs, who are interested to submit quotation/tender for the supply of MD for services of DH are encouraged to apply for listing of MD under the MDACS as soon as possible. Please refer to our website (<https://www.mdd.gov.hk/en/mdacs/listing-application/medical-device/index.html>) for application details.

We extend our appreciation for your continuous support of MDACS. You are welcome to approach our enquiry channels (Tel: 3107-8484, e-mail: mdd@dh.gov.hk) should you have any enquiries on the pilot run. For details of particular MD procurement quotation / tender requirements, invitation document issued by the respective procuring services of DH shall be referred.

*Note: According to the Classification Rules of medical devices under MDACS.
